
LUCON III

Programme Book.

Introduction

Welcome to LUCON III, the third convention run by the Leeds University Science Fiction and Fantasy society. If things go well, I bet you won't be reading this programme book until the convention has finished, apart from glancing at the directions to the bar and eating prizes, and possibly at the programmes.

Always LUCON the bright side of life, and remember, we have ways of making you enjoy yourself. (Or so we hope.)

So on with the important stuff.

Bar

The bar marked on the map is not the only bar in the building, nor is the only one which we have to ourselves. There is also a bar in the centre of the union, but the only one you would probably wish to visit is the main bar, which is situated in the basement, opposite the RPC room. The con bar will be selling Tetley's cheaper than the main bar on Saturday night, and more spirits cheaper on Sunday. It may or may not be selling real ale draught drinks, such as Guinness. Anyone requiring such drinks is recommended to find the Old Bar downstairs and get a few in early, since the Con Bar gets very crowded late on Saturday and Sunday nights.

Apart from the normal bar, the convention will be selling various alcoholic beverages on Sunday evening after the Alice Cooksey II panel.

Vignetting

Lucon III (LUUSFS)

Science fiction convention held in 1991. See SFcentral; Fancyclopedia
